Ride the future.®

XEBRA®

100% Electric

ZAPCAR®

Innovation

The ZAP XEBRA is the offspring of more than three decades of thought and evolution. This car was created as a breed by itself. Because the use and purpose of electric vehicles is different than gas cars, the wheel did indeed need to be reinvented.

- **Only City-Class EV in Production**
- **Approx. 1 to 3 cents per mile**
- **Speeds Up to 40 MPH (64.3 km/h)**
- **Range Up to 25 miles (40 km)**

Xebra Xero SOLAR ZAPCAR

It's Electric!!

Laugh at high oil prices, in fact, forget about gas stations, oil spills, and fumes forever! A XEBRA's appetite is meager and you can recharge it at any electrical outlet.

Even after counting emissions from electric generating plants XEBRAS produce 98% fewer pollutants than gas cars.
